

SP9: Development of a Web-based Knowledge Management System
Revised Project Plan

S. N.	Task details	Date for completion	Current status	Responsibility
1	Conceptual development			
1.1	Conceptual development/agreement of the knowledge management system (KMS)	May 2012	Completed	Project team, TAC
1.2	Development of the structure of KMS with some examples	Aug 2012	Completed	Project team
2	Collection and synthesis of information			
2.1	Preparation of summary sheets based upon the subproject final reports to support the development/refinement of the KMS structure			Project team
	SP4, SP6	Aug 2012	Completed	
	SP7, SP8	Jan 2013	Ongoing	
	SP2	Mar 2013		
	SP3, SP5, SP1	Aug 2013		
2.2	Preparation of fact sheets based upon the existing information and SCORE sub-project reports			Project team
	SP4, SP6	Jan 2013	Ongoing	
	SP7, SP8	Mar 2013	Ongoing	
	SP2	Apr 2013		
	SP3, SP5, SP1	Sept 2013		
3	Implementation of the KMS			
3.1	Investigation of possible platforms for hosting the system, appropriate database software and identification of IT support needed	Nov 2012	Ongoing	Project team, suggestions from TAC
3.2	Study of the publicly available KMSs (for the selection of an appropriate model)	Nov 2012	Ongoing	Project team, suggestions from TAC
3.3	Launching of the beta version of the KMS	Feb 2013		Project team
3.4	Incorporation of the information collected to the KMS components	Sept 2013		Project team
3.5	Incorporation of industry case studies into the KMS	Sept 2013		Project team, industry partners
3.6	Upgrading KMS based upon the information from SCORE subproject			Project team
	SP4, SP6	Feb 2013		

	SP7, SP8	Apr 2013		
	SP2	May 2013		
	SP3, SP5, SP1	July 2013		
4	Testing and commissioning of the KMS			
4.1	Testing of KMS and further improvements	Oct 2013		Industry partners
4.2	Commissioning of KMS	Nov 2013		
5	Reporting and handover			
5.1	Reporting on what has been included and what needs to be done in the future	Dec 2013		Project team
5.2	Handover of the KMS	Dec 2013		Project team, WSAA
